

Asbestos Law: A letter from Peter Gordon

Welcome to Slater & Gordon's Asbestos Compensation Department .

I've been acting for people hurt by asbestos disease for over 25 years. In that time, I'm proud that Slater & Gordon has developed a specialist asbestos practice in every mainland state of Australia.

We have the biggest, [most experienced team of expert asbestos lawyers](#) in the country. We have an [unsurpassed track record of solid achievement](#) for our asbestos clients.

We are proud of the consistently [high level of appreciation](#) our clients express for the asbestos work we do. And we are proud that we have been able to use the research and learning of over 3000 cases over the past 25 years to create a [unique resource of evidence](#). It's a database that took us 20 years and millions of dollars to assemble. And it gives Slater & Gordon a unique ability to help many asbestos claimants find out where their asbestos exposure may have happened.

We are also proud that, through all of this period, we have put our money where our mouth is. We have devoted over half a million dollars to [asbestos disease research](#), at least as much in pro bono representation of unions and asbestos support groups in the James Hardie case and much, much more to support asbestos support groups over 20 years.

We are proud and privileged to offer our services to you and your family.

A handwritten signature in blue ink, appearing to read 'Peter Gordon'. The signature is fluid and cursive.

Peter Gordon

Executive Director and Deputy Chair and National Practice Group Leader, Asbestos Litigation and Project Litigation
