

Asbestos Claims

How to obtain compensation for your asbestos related disease.

If you have been diagnosed with an asbestos related illness you should seek expert legal advice

If you have been diagnosed with mesothelioma or asbestosis then you have been exposed to asbestos. You may be able to identify the exposure yourself or like many people be unaware of where or how your exposure occurred.

A lot of people diagnosed with lung cancer are also unaware that asbestos exposure may be partly responsible, even if they smoked.

Slater & Gordon have acted for more asbestos victims than any other law firm and have developed an extensive database on how people were exposed to asbestos and what products were manufactured with asbestos, and by whom. Our database of information, knowledge and experience helps us to identify your exposure quickly.

Benefits you could be entitled to

If you have been exposed to asbestos and have been diagnosed with an asbestos related disease you can claim lump sum compensation (known as 'damages'). These damages can include compensation for:

- ▶ Pain and suffering
- ▶ Any past and future medical expenses incurred as a result of your condition
- ▶ Lost earnings for the past and future
- ▶ A payment for reduced life expectancy

Slater & Gordon locations:

- ▶ Adelaide
- ▶ Brisbane
- ▶ Canberra
- ▶ Melbourne
- ▶ Morwell
- ▶ Perth
- ▶ Sydney
- ▶ Newcastle
- ▶ Wollongong

It is impossible to state exactly how much the compensation would be as each case differs, but if we are able to obtain good evidence to support your claim then it is likely the compensation will be significant.

Slater & Gordon will offer a No Win No Fee™ arrangement

This means you will not be required to pay for professional fees until the successful conclusion of your case. We will also fund out-of-pocket expenses.

Our lawyers have many years of experience in this area, providing you with personalised service for the best result. We will also come to you and visit you at home or in hospital.

If you have been diagnosed with an asbestos related disease you may be entitled to compensation even if you are uncertain where you were exposed to asbestos, you were exposed many years ago, your employer is no longer in business or you were a smoker.

For more information call our expert lawyers who are ready to advise you.

*Conditions apply.
Does not include other party costs.
